Re: Cost of basic training

As of Basic Class 2013-3, which begins on August 4, 2013, the Mississippi Board on Law Enforcement Standards and Training has raised the requirements for basic law enforcement certification from 400 hours of instruction to 480 hours of instruction. As such, costs must necessarily increase to cover additional expenses.

Listed below is a breakdown of the cost for one cadet to attend the 480-hour, 11-week basic law enforcement academy. Once completed, graduates are eligible for certification as Mississippi Law Enforcement officers. Prior to acceptance, a candidate will have to undergo a background investigation, physical examination and physical fitness test. During the 11-week program, a cadet is tested on academics, physical fitness and state certifications such as First Aid, CPR, pursuit driving, defensive tactics and firearms.

Most cadets are sponsored by a police or sheriff's department that furnishes equipment to the cadet for training. A person not sponsored by a law enforcement agency will have to provide this additional equipment. Should a cadet not have these items, the Academy will provide them at an added cost. This arrangement must be made prior to the start of the training. A breakdown of the cost is listed below, but does not include medical insurance, which the cadet must have during the course.

You will need to provide proof of medical insurance, have a current driver's license, and have verified funding in place by the start of class. Any student who fails to enter, drops, or is dismissed from the academy will receive a pro-rated refund of tuition based on the number of training days remaining. Cadets who fail the program are not eligible for a refund.

If you need any additional information, please call the academy at 228-435-3165 or email academy@harrisoncountysheriff.com.

Harrison County Law Enforcement Training Academy Basic Law Enforcement Training Class

General Information

- Payment by check, money order, or agency purchase order is due one
 week prior to the beginning of class. The tuition of \$3,600 will be refunded
 in a prorated amount should an officer not complete the entire course
 (failures will not result in a refund).
- Payment should be made payable to: Mississippi Gulf Coast Community College.
- Please make sure application is completed in full; signatures are required in several places; verify the physician, officer/student and the agency head have signed in each space as indicated. Unless there is a completed physical assessment and approval by a physician, the applicant will not be admitted to the academy and cannot participate in any physical fitness pretest.
- Applicants have two opportunities to participate in a physical fitness pretest on dates and times to be announced; this pre-test is not mandatory, but an applicant who does not participate in a pre-test must successfully pass a physical fitness assessment immediately upon reporting to the academy. This leaves no room for error an officer who cannot meet 50% of the required physical fitness standard will be sent home.

PEACE OFFICER STANDARDS & TRAINING

FULL-TIME BASIC TRAINING PACKET MEMORANDUM

Law Enforcement Administrator and Examining Physician:

This training packet contains a medical evaluation, a reimbursement supplement and an application for enrollment to the academy. Please complete all forms in accordance with the instructions below. Submit the completed packet (pages 1 - 8) to the academy at least two weeks prior to attending a training course (forms that have been completed six months or more prior to training cannot be accepted). With an increased awareness of the importance of physical fitness in the law enforcement profession, as well as in the overall maintenance of quality of life, the Board on Law Enforcement Officer Standards and Training (BLEOST) has enhanced fitness standards for law enforcement candidates. Students will be participating in vigorous physical fitness training and defensive tactics, as well as stress-related training (physical and mental), in such areas as driving, firearms and officer survival. Driving and firing events incorporate seasonal inclement weather with day and night sessions to further enhance stress-related training.

This medical examination report should provide an adequate evaluation of the physical condition of a law enforcement candidate and identify potential problem areas in each candidate's ability to successfully complete training. Agencies are urged to consider carefully any decision to enroll a student in training who has a potential problem. Students with weight problems, who have not been active in a physical fitness program or who have some medical difficulty, will have a greater probability of not completing the course. If at all possible, fitness levels should be at or above the minimum levels established in this packet prior to attending the basic course. The procedures for completing these forms are as follows:

Information for the Physician - Continued

Physical Fitness Requirements

The Board on Law Enforcement Officer Standards and Training (BLEOST), in recognizing the importance of physical fitness for academy performance and subsequent job performance, has established physical fitness training standards that must be achieved in order to successfully complete the training program. The board has established a test that effectively measures cardiovascular endurance and strength. An additional component of fitness, body weight and composition (% of body fat), has a great impact on the examinee's ability to perform the other tests. The evaluation of the candidate's fitness begins with a physician's examination and a determination of the ratio of fat to lean tissue. If an individual's weight exceeds the threshold weight, then a skinfolds caliper measurement should be taken to determine body fat percentage.

Beginning July 1, 1995, the BLEOST will require all board-approved training academies to administer an entry physical fitness test for those students reporting to the basic training program. The examination will be given immediately upon reporting for training and will determine whether a student can remain in the program. This test is an eligibility requirement. A passing score of 50% must be achieved. Those students who fail the examination must leave the academy. They may, however, resubmit their application to attend a future training class.

The test is comprised of four components: Flexibility, agility run, push-ups, and a 1½ mile run. It is the same test administered at the end of the program with one exception: The entry examination requires 50% to pass while the final test mandates 70%. This new requirement does not relieve students from participating in P.T. training once they pass the entry requirement. Trainees will continue to participate in scheduled P.T. training and must also pass a final P.T. test with a minimum score of 70% in order to graduate. It is important that all students understand this since even a physically fit person who has engaged in poor eating or drinking habits before reporting could fail the test.

Physical fitness can only be achieved over time. It requires a commitment to regular exercise and good eating habits. Thus it is important to disseminate this information so that all impacted personnel can prepare ahead of time. Scores needed to enter training and to graduate are as follows:

SALARY	INFORM	ATION

Any reimbursement of training expenses will be authorized only for those agencies and subdivisions of the state who are in compliance with all provisions of the Law Enforcement Officers Training Program (LEOTP) to include those policies and procedures established by the Board on Law Enforcement Officer Standards and Training pursuant to the LEOTP. The board staff shall review all the information available on each graduating class and determine the eligibility and amount of reimbursement to each agency.

NOTE: As of July 1, 2013 any officer (law enforcement trainee) who is not certified within one year from his or her date of hire is not authorized to be paid a salary. Accordingly, the Board will not reimburse any salaries paid under such circumstances. However, any person, who, due to illness or other events beyond his or her control, could not attend the required school or training as scheduled, may serve with full pay and benefits in such a capacity until he or she can attend the required school or training.
