

# Street Cop Spanish "Dispatcher Edition"

Street Cop Spanish – Dispatcher Edition is a Spanish training course for dispatchers. The objective of this course is to teach dispatchers enough Spanish words and phrases to limit the need to transfer Latino callers to the language line. Dispatchers will be able to ask questions, determine what the emergency is, and what emergency personnel need to respond. This training does not eliminate the need for the language line, but it will save dispatch centers money by eliminating the unnecessary, non emergency, calls to the language line.
